

# How to install the Lockdown browser

If your class requires an install of the LockDown browser please follow the following guide

## Step 1:

Go to the download page of the lock-down Browser that your instructor provided and select "Install Now"

## Step 2:

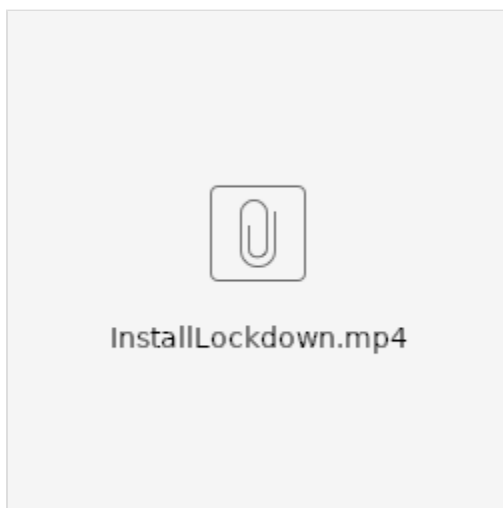

Once Downloaded open the file on your local computer and select the following options from the installer.

Language: English ( United States )

License Agreement: "I accept the terms of the license agreement"

## Step 3:

After it is installed you may launch it from your Start Menu and go to [canvas.ccsnh.edu](https://canvas.ccsnh.edu)
